

LEGEND

Risk level indication of non-compliance with deforestation

- Low risk; farm unit does not overlap forested areas with tree cover loss.
- Medium risk: farm unit with a partial overlap (<1,2%*) in forested areas with tree cover loss.
- High risk: farm unit with a partial (>1,2%*) or total overlap in forested areas with tree cover loss

Deforested areas

- Areas where tree cover loss and forest cover intersect *.

*For more information about the methodology please check the "Guidance D: Geolocation and Farm Maps" on www.rainforest-alliance.org
